About MNE 2022

We welcome you to the **Micro and Nano Engineering (MNE) 2022**. It will be the **48th MNE Conference** in a series that started in Cambridge in 1975 and was held most recently in Vienna (2016), Braga (2017), Copenhagen (2018), Rhodes (2019) and Torino (2021). In 2022, we welcome you in **Leuven**, Belgium, in the heart of Europe. As a vibrant university town, Leuven combines academic rigor with an innovative vibe and the art of enjoying.

The MNE 2022 is co-organized with **EuroSensors 2022**. EuroSensors is a series of highly successful conferences that began in Cambridge in 1987. The most recent EuroSensors conference editions were in Budapest (2016), Paris (2017), Graz (2018) and Berlin (2019).

The conference will include special sessions related to the **Plasma Etch and Strip for Microtechnology workshop (PESM)** and the **Superconducting micro- and nano-devices (SMND)**.

The general conference chair is Michael Kraft (ESAT-MNS, KU Leuven), the general co-chair is Irene Taurino (ESAT-MNS, Semiconductor Physics, Department of Physics and Astronomy, KU Leuven) and the program conference chair is Jean-François de Marneffe (imec).

Conference Topics

MNE is the major European conference focusing on micro/ nanofabrication and manufacturing techniques used for building micro/nanostructures, devices and microsystems for electronics, photonics, energy, environment, chemistry and life sciences.

EuroSensors is the leading European conference devoted to the last advancement of micro and nanotechnologies in fields of sensors and actuators. New developments ranging from new sensing materials and sensor fabrication processes up to wireless sensor network, micro power generation, micro fluidic, bio analytical systems, etc., are particularly welcome.

The conference topics cover:

- ⇒ Novel Developments in Nano/Micro Fabrication Methods and Processes
- ⇒ Fabrication and Integration of Micro/Nano Structures, Devices and Systems
- ⇒ Micro/Nano Engineering for Physical and Chemical Applications
- ⇒ Micro/Nano Engineering for the Life Sciences
- ⇒ Theory, Design, Materials and Technologies for Solid State Transducers
- ⇒ Theory, Design, Materials and Technologies for Actuators
- ⇒ Physical, Chemical and Biological Sensors

- ⇒ Nanotechnology for Sensors, Actuators and Microsystems
- ⇒ Micro Fluidic and Micro Analysis Devices and Systems
- ⇒ Micro Power Generation
- ⇒ Interface and System Issues
- ⇒ Algorithm and Sensor Networks
- ⇒ Wireless Sensor Networks
- ⇒ Packaging and Assembly Technology

Why Sponsoring MNE 2022?

This is a unique opportunity to showcase your applications and technology! MNE2022 will take place as a fully on-site Conference in Leuven.

- ⇒ You will reach 800-1000 international attendees (70% Europe, 15% USA, 15% Asia).
- ⇒ Exhibition booths are situated among the technical poster exhibition and in the same location as the coffee breaks, intended to guarantee a steady flow of attendees to the exhibition space, and to provide optimal location for gatherings and discussions.
- ⇒ KU Leuven is one of [Europe's most innovative universities](#) & imec is **the world-leading R&D and innovation hub** in nano-electronics and digital technologies.
- ⇒ Attended by global experts, world-famous plenary and invited speakers, and decision-makers.
- ⇒ Fair-priced deals and flexible offers, adapted to your needs.
